

# Transparent Film LED

## Simple and fast installation

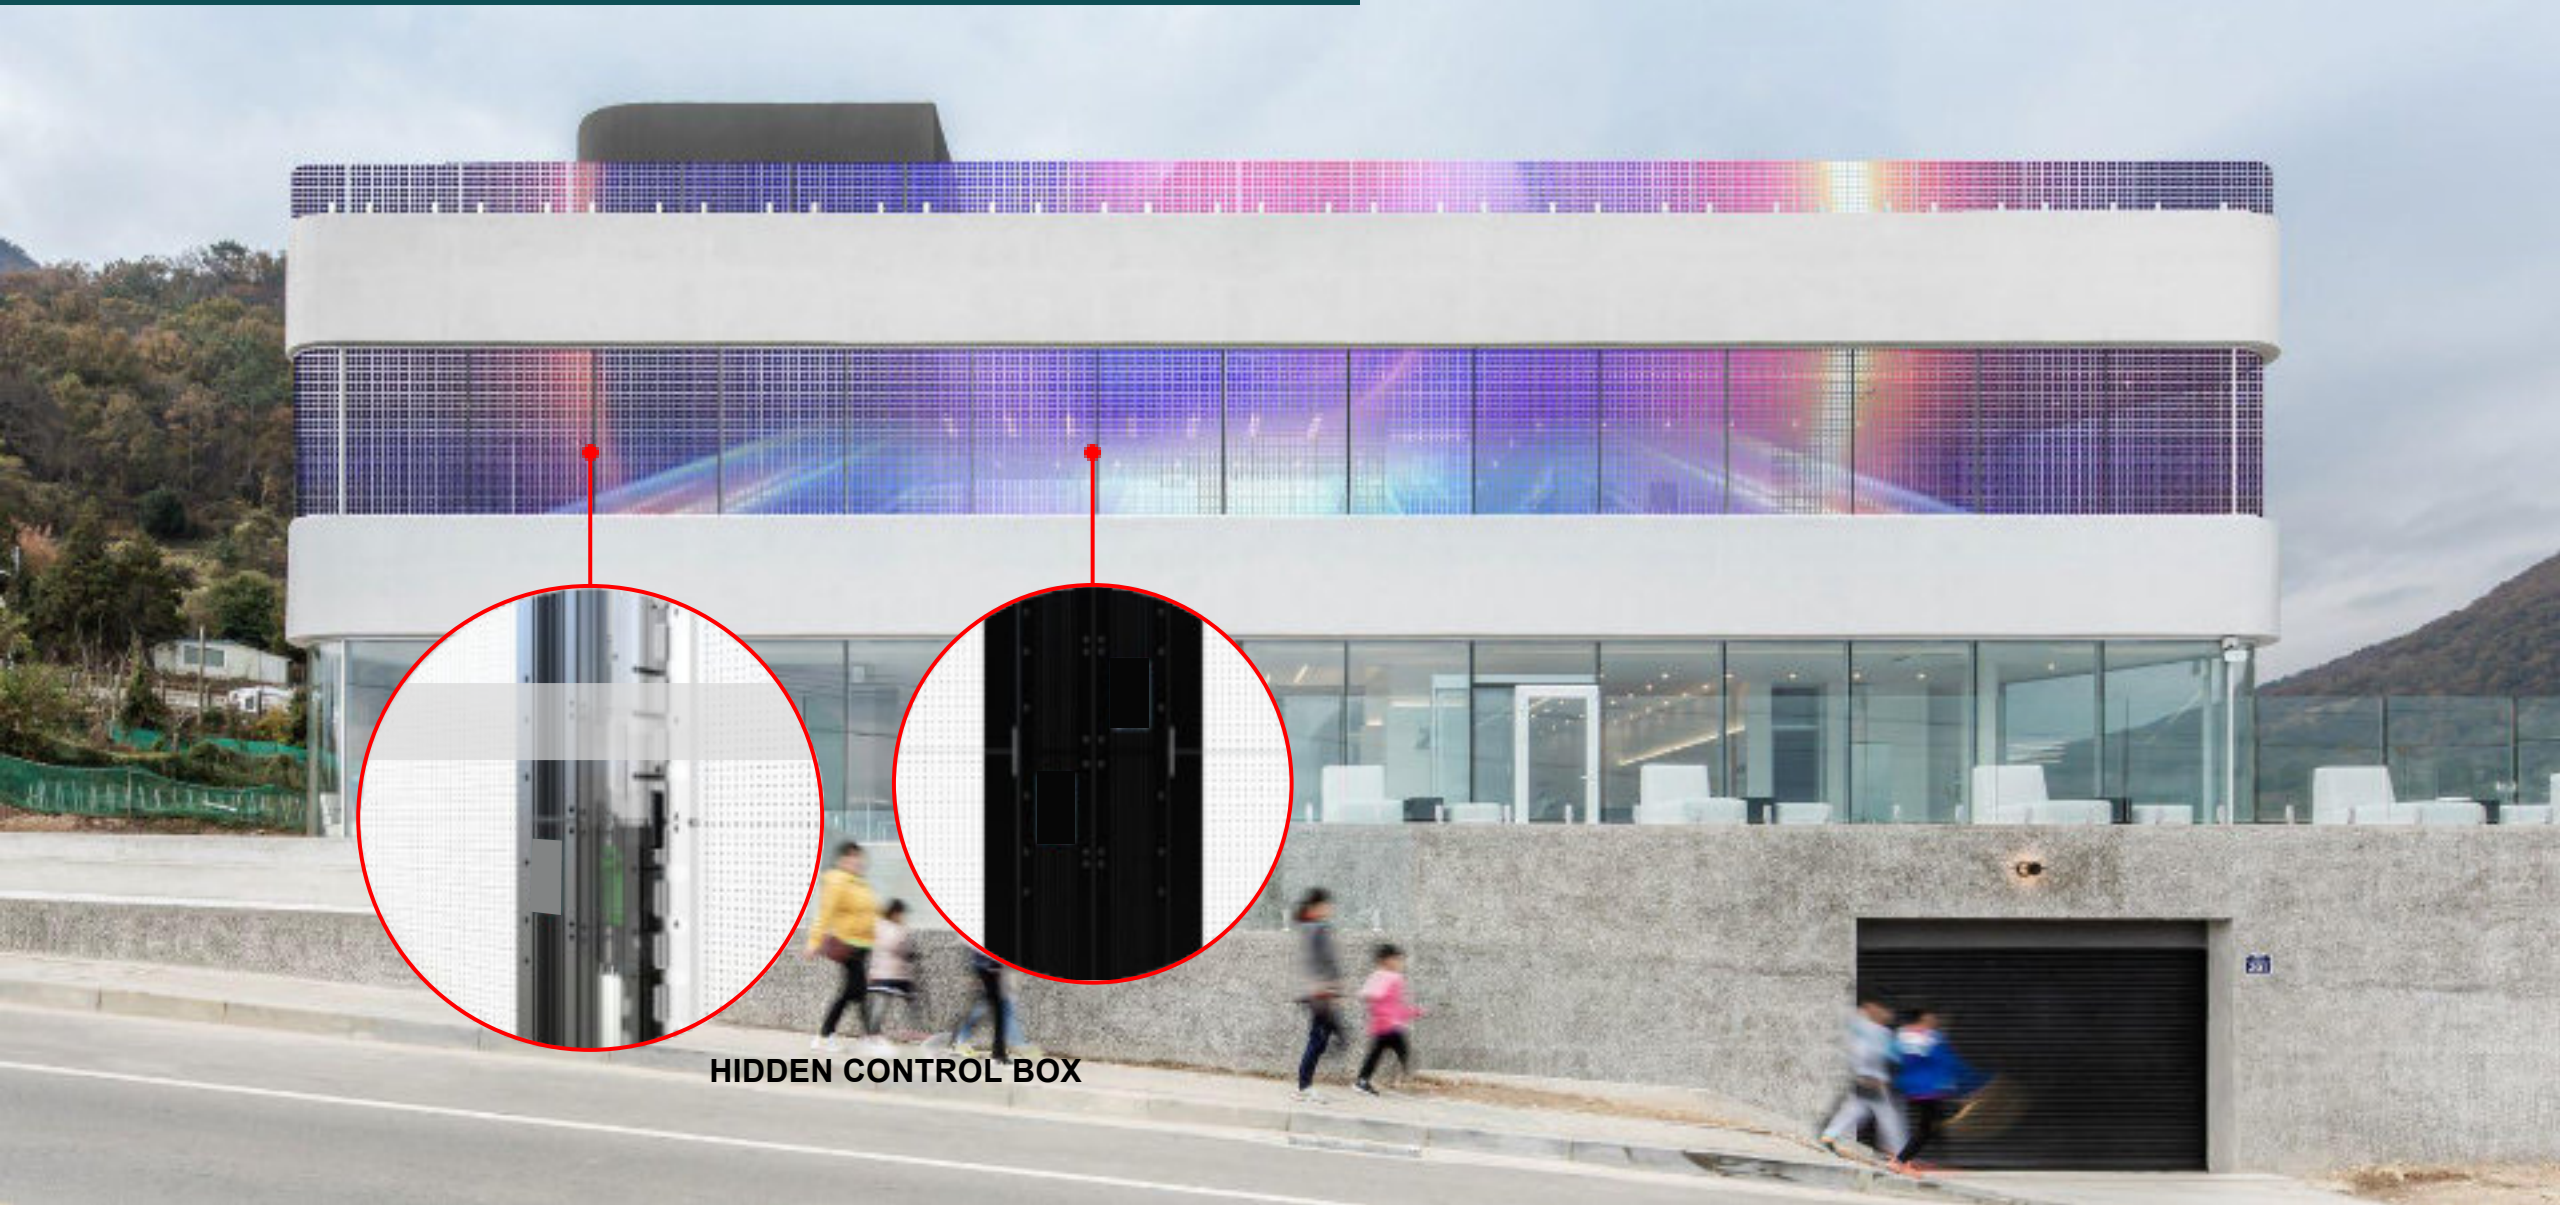

Easy to install, just stick it direct to your glass or perspex surface. No need for steel structure; no need for custom mounting solutions and additional support.

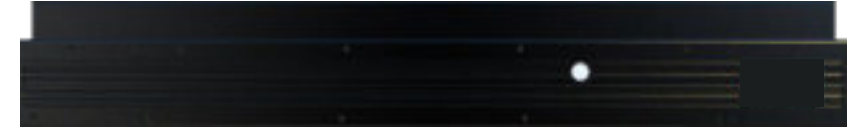

## Stable and Seamless Image

The control box can be located out of site and installed to the top, bottom or side of the transparent film.

HIDDEN CONTROL BOX

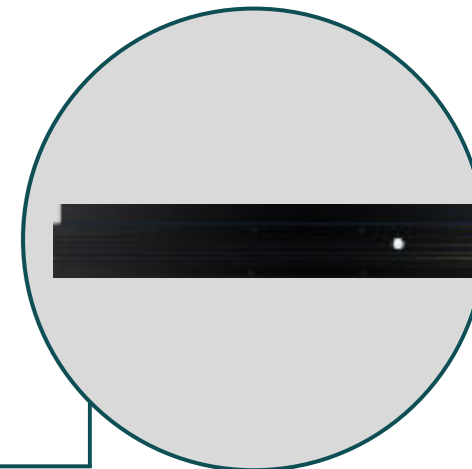

## Flexible control box installation

Ultra-transparent LED display product developed for shopping malls, hotels, real estate, attraction fences, science and technology exhibition centers, stadiums, gallery bridges and more.

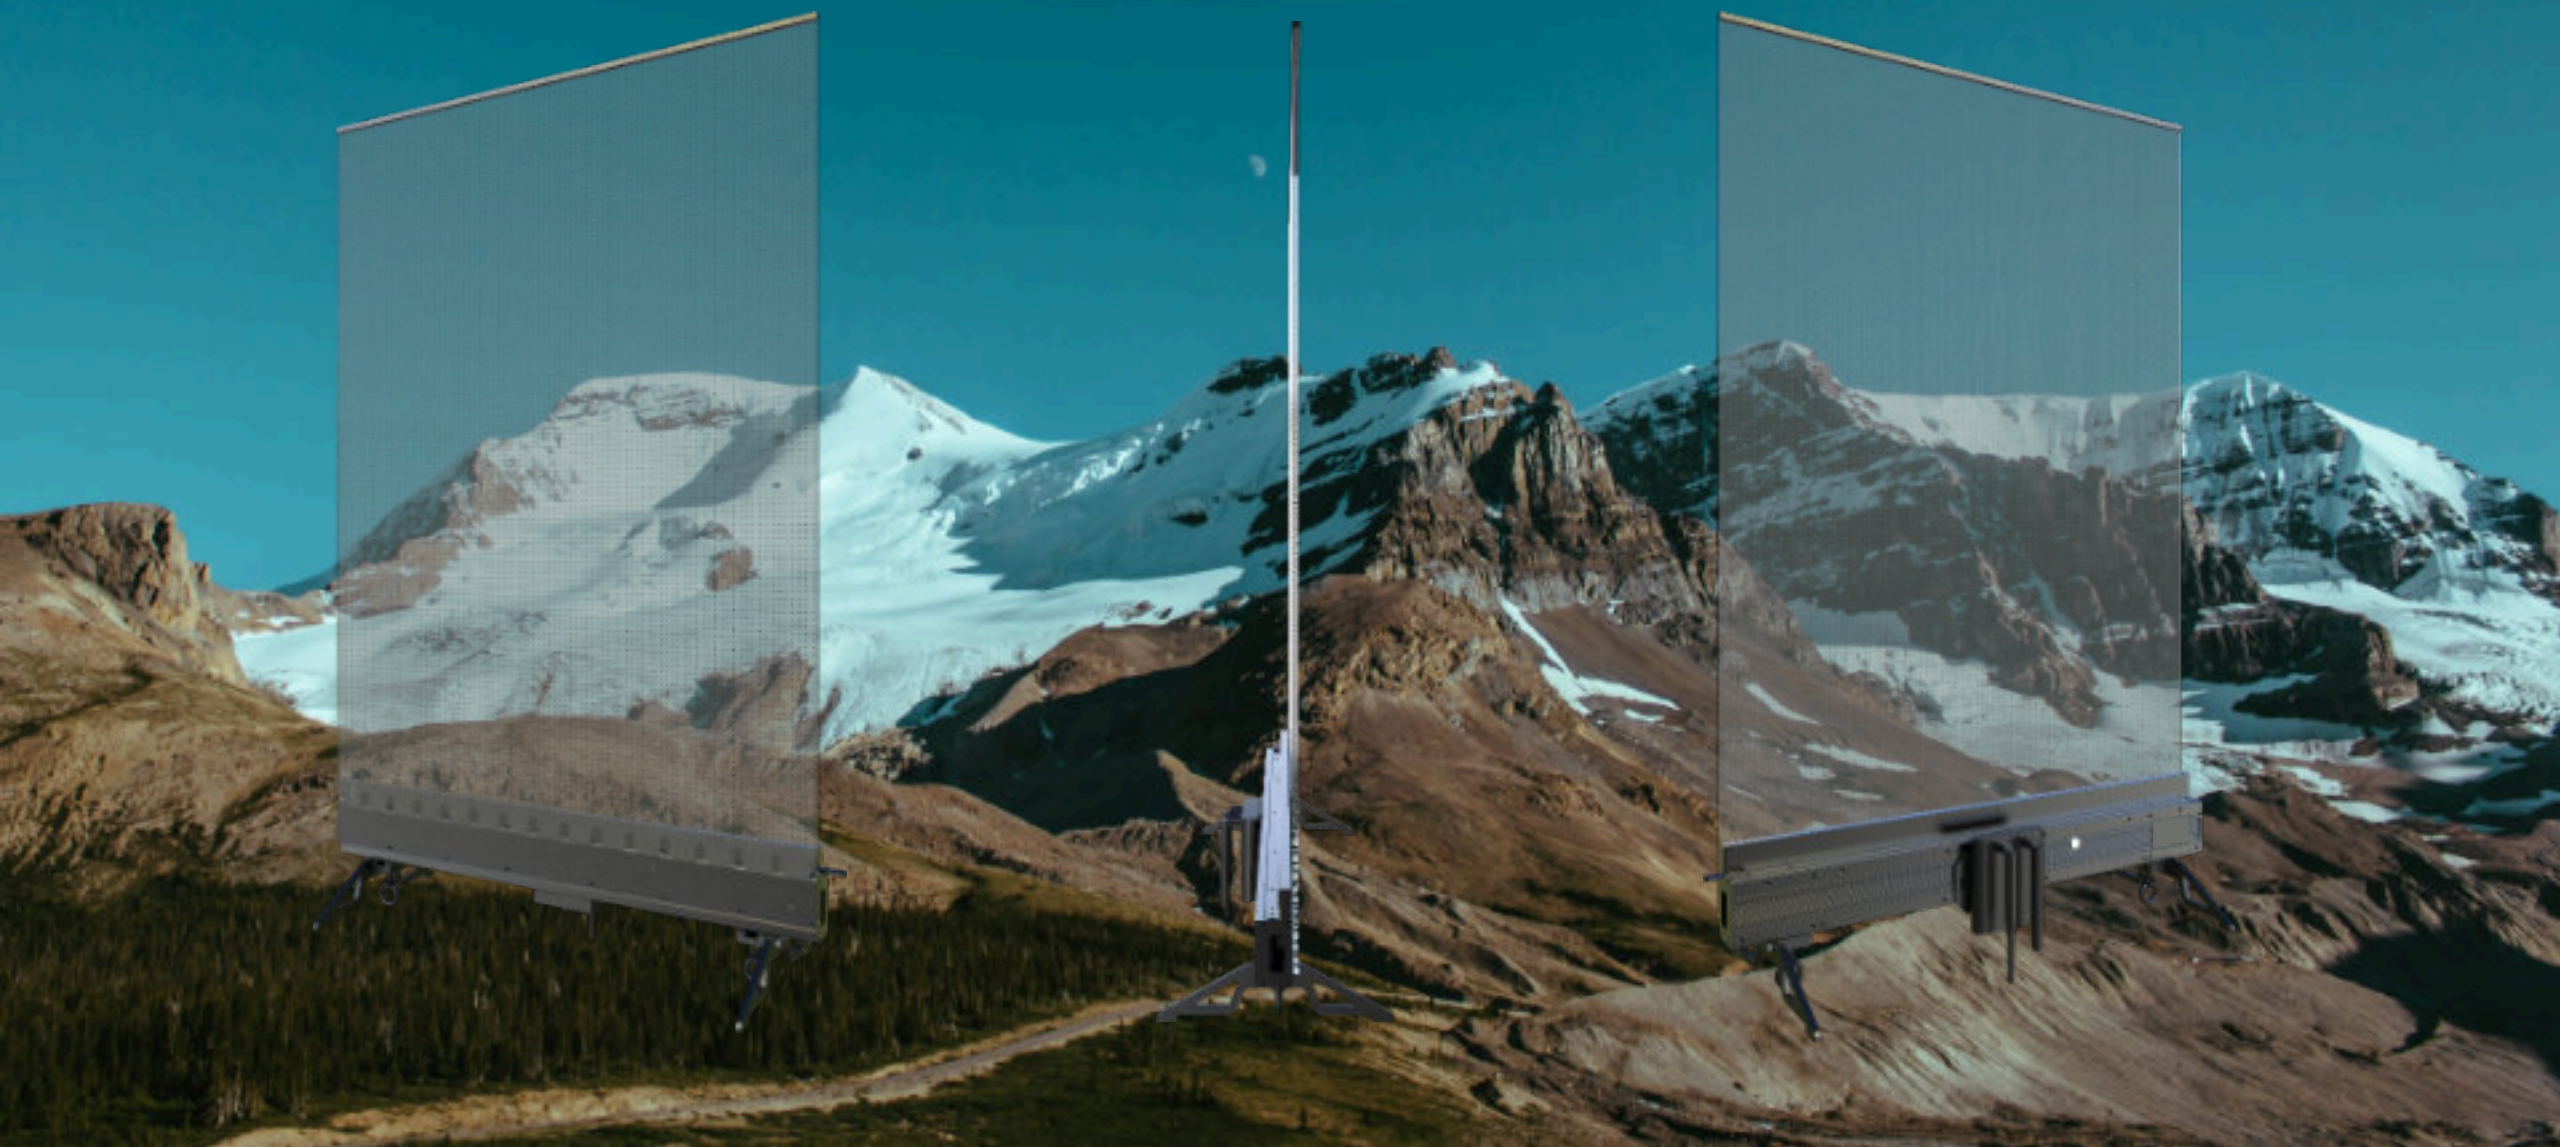

Seemless integration into commercial public spaces allows audiences to encounter advertising and art in a clean integrated way.

With flexibility on control box installation to the bottom, top or sides of each section a completely transparent display can be realised.

HIGH **TRANSPARENCY** ALLOWS CLEAR VIEW  
THROUGH THE SCREEN

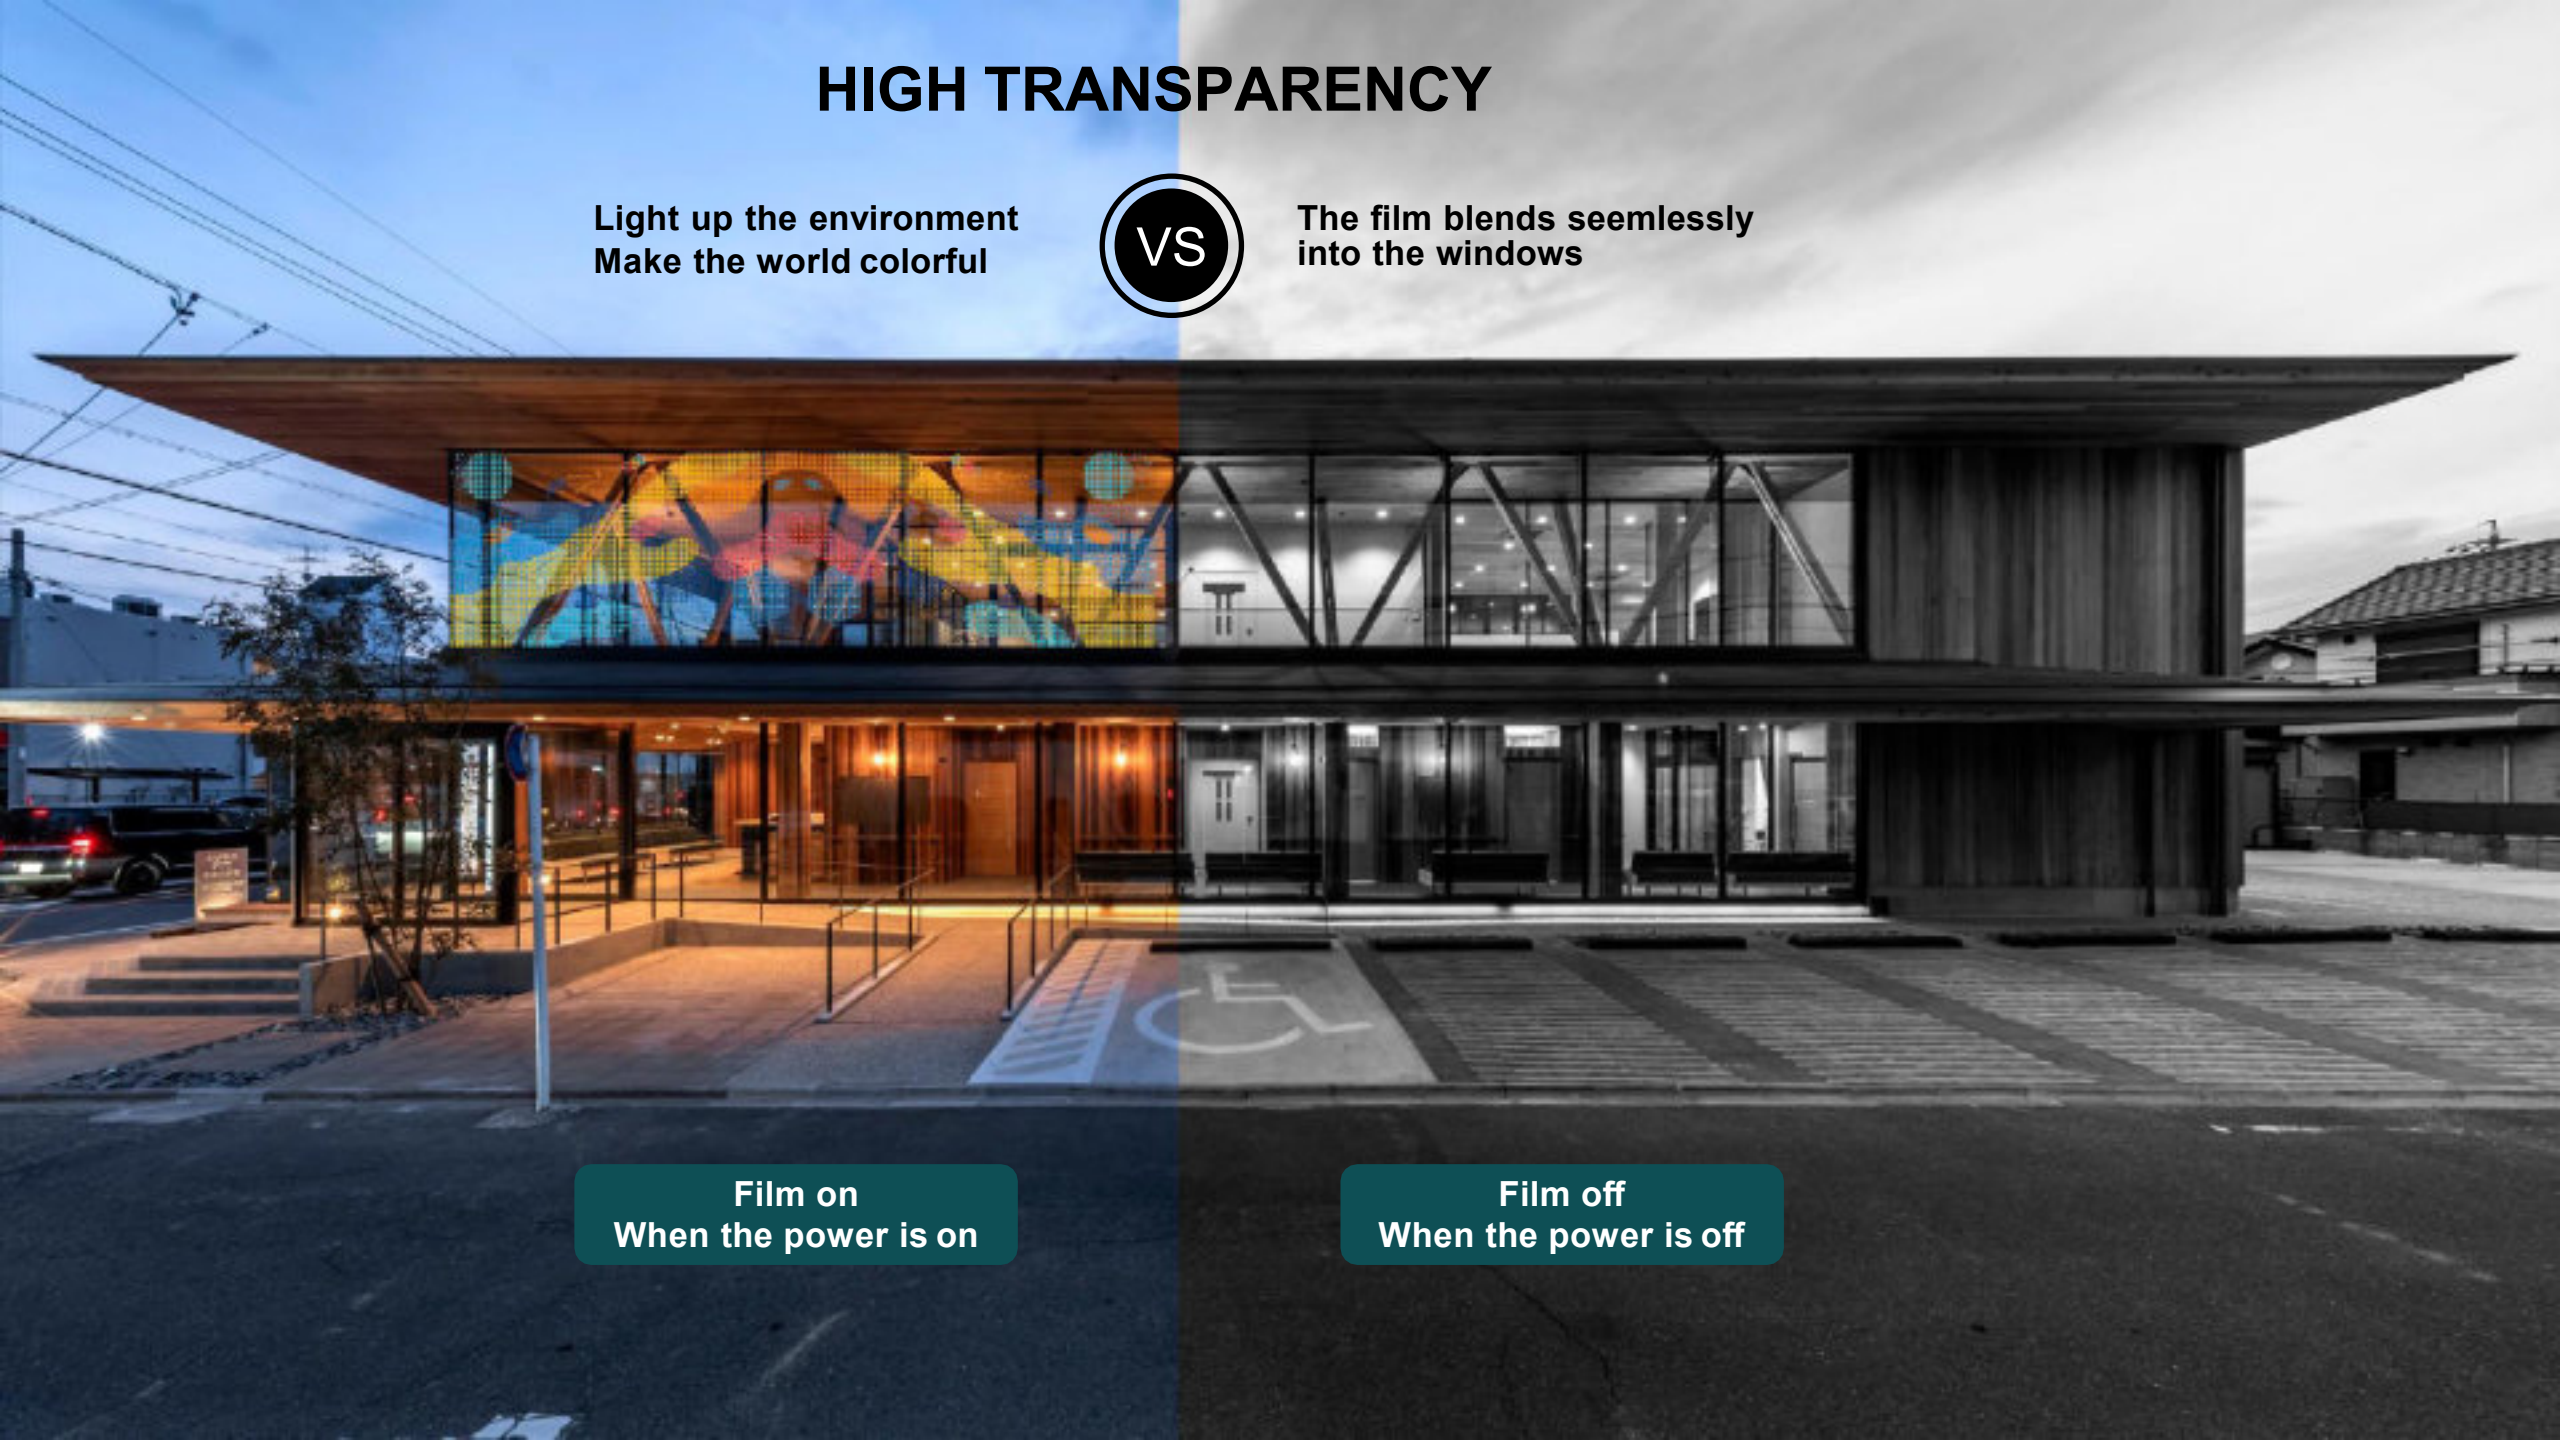

# HIGH TRANSPARENCY

Light up the environment  
Make the world colorful

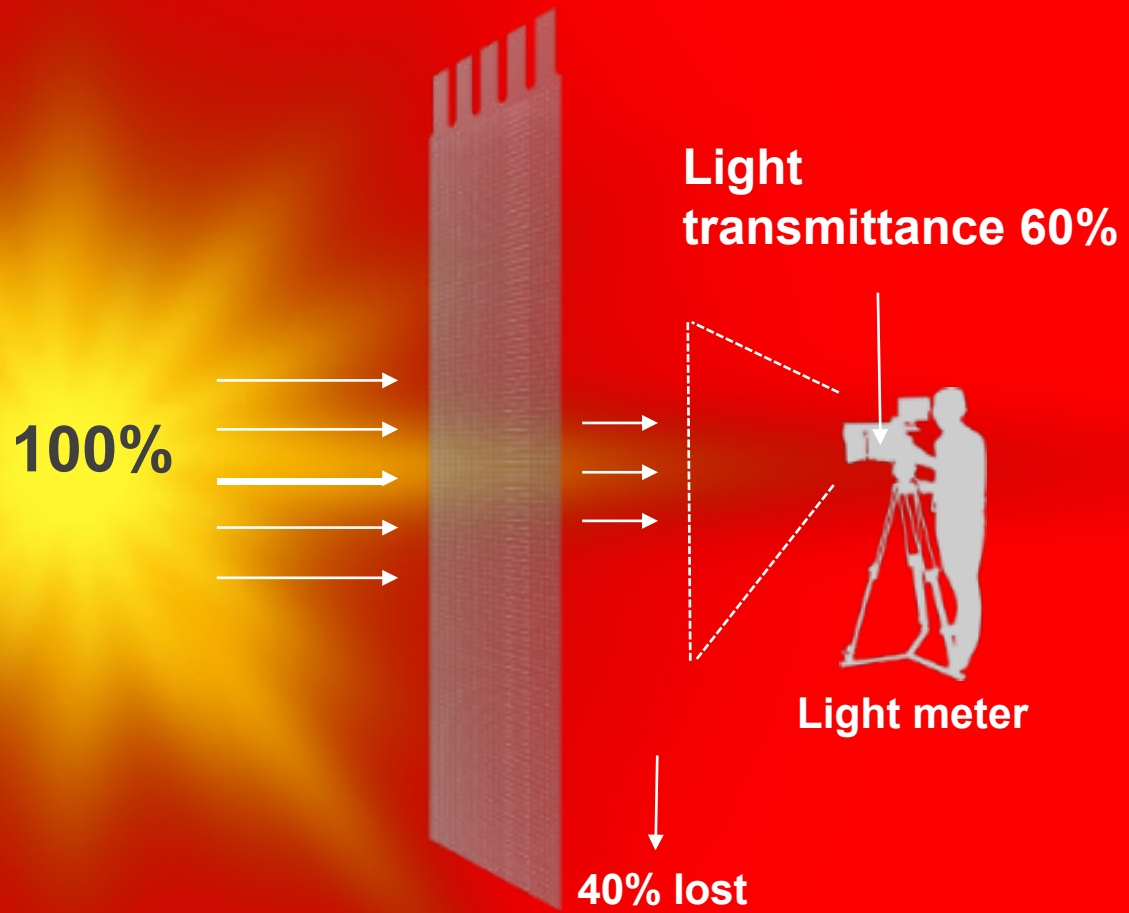

The film blends seamlessly  
into the windows

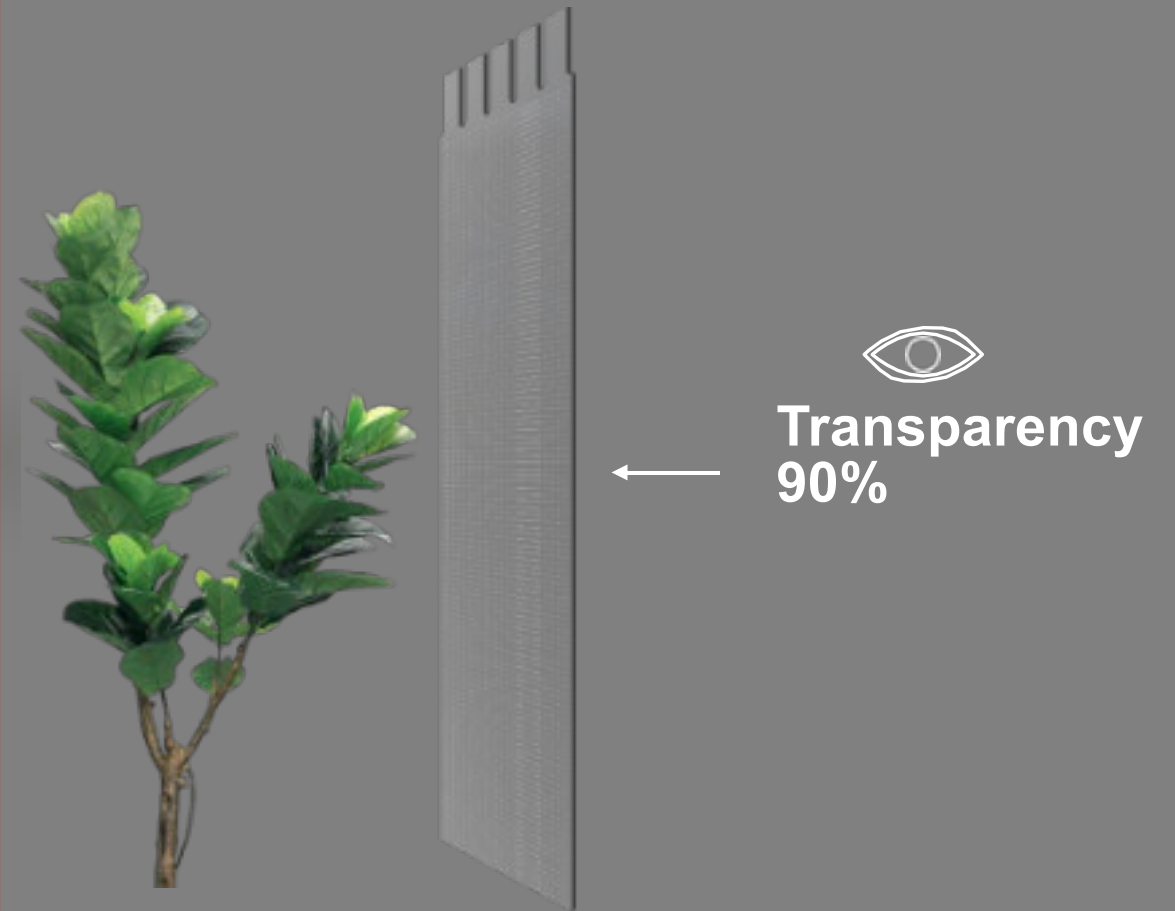

Film on  
When the power is on

Film off  
When the power is off

Light transmittance 60%

Transparency 90%

**Cutting at Will**

**Cutting at Will**

**Borderless design**

**Good protection**

**Film & Controller Box  
Easy pack & ship &  
installation**

## Flexible Customization

Easy Creative solutions

Easy to make custom designs such as Letters, Triangles, Circles and more

Soft / Flexible Module compatible

Best suitable for Pitch 2.6 to Pitch 16

### Fast

Fast design  
Fast installation  
Quick troubleshooting

### Lightweight

Super light weight  
20% lighter than traditional solutions

### Easy

Simple design  
Easy customisation  
Easy to create displays of all shapes

### Bright

High brightness  
High contrast
